

FILE HANDLING

File Handling

```
#include<stdio.h>
#include<conio.h>
void main()
{
    FILE *p;
    p = fopen("ABC.txt","w");
    if(p==NULL)
    {
        printf("file not found");
    }
    else
        printf("file is present");
}
```

File Handling

```
#include<stdio.h>
#include<conio.h>
void main()
{
    FILE *p;
    p = fopen("AAA.txt","w");
    if(p==NULL)
    {
        printf("file not found");
    }

    else
    // printf("file is present");
    fprintf(p,"hello guys");

    getch();
}
```
